

PRACTICE AREAS

PUBLIC ENTITY

We represent a wide range of public entities, including municipalities, counties, county freeholder boards, library commissions, county colleges and municipal utility authorities. Our attorneys serve in roles including general counsel, special counsel, litigation counsel, prosecutor and public defender, and work with the applicable governing body, board members and other professionals to advance the interests of the public entity and the residents it serves.

Sensitive to the legal, political and everyday challenges that face public entities, we draw on our deep knowledge of the Tort Claims Act and other bodies of law to assist our clients. Our experience as governmental affairs agents (lobbyists) allows us to help our clients influence existing and proposed laws or regulations and obtain state or federal funding. Our attorneys work hard to reach quick and fair resolutions for our clients but are also prepared to vigorously try cases in municipal court.
