

HEALTHCARE & HOSPITAL LAW

Our attorneys combine practical healthcare industry knowledge with unparalleled awareness of regulations and compliance to help clients meet the challenges and changes in the healthcare industry. We actively practice before state regulatory bodies, the New Jersey Legislature and in the state and federal court systems on behalf of physicians, hospitals, healthcare providers and pharmaceutical companies.

We are hands-on partners with our clients, representing them before various state healthcare licensing and professional boards and regularly participating in the state rule-making process. Our attorneys also offer valuable counsel to clients on healthcare compliance issues and assist them in navigating complex state and federal rules.

AREAS OF FOCUS

- Participate in state rule-making process.
- Provide representation before state healthcare licensing and professional boards.
- Counsel healthcare providers on state and federal rules regarding patient access, reimbursement and patient privacy rights.
- Advise on healthcare compliance, including HIPAA, fraud and abuse regulations, and federal anti-kickback rules.
