

HIGH NET WORTH

Williams Parker was founded in 1925, at the height of the Roaring Twenties, which saw the arrival of many high net worth individuals, families, and business owners to Florida. Over the ensuing century, corporate executives, families, and individuals of means have continued to establish residency in Florida to take advantage of the warm weather and favorable tax and business climate. Williams Parker's counsel to high net worth individuals and families spans generations. Our clients appreciate our attentiveness, discretion, and judgment. Whether offering guidance on estate planning, retirement, business succession, tax, estate and trust administration, estate preservation and transfer, charitable giving, or private foundations, we have profound experience helping our clients preserve their wealth and prosperity. The firm offers one of Florida's largest and most sophisticated estate planning and administration practices, and many of our attorneys are board certified and have at least one advanced degree in taxation, accounting, or business.
